

BRICK SPECIALS

The PD Edenhall range of facing bricks is supported by a range of standard matching specials produced to BS4729. This Technical Bulletin is only intended to show the most popular sizes and shapes, many other complementary and striking shapes can be manufactured to meet bespoke requirements.

Please note that certain specials are only available in a smooth finish, whilst others are produced in both smooth and rustic textures. Consult our Sales Office for specific details.

Because of the particular method of production of special bricks it is important that adequate notice is given before delivery can commence.

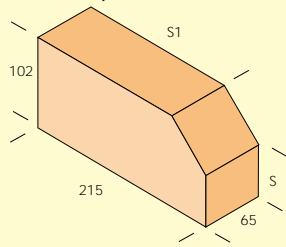

Our Sales Office can quote delivery times.

Where special bricks are inappropriate, our Architectural Cast Stone facilities are available to manufacture particular detailed components.

NOTES:

- S: Specify Dimension
- S1: Specify Dimension
- R: Specify Radius
- A: Specify Angle

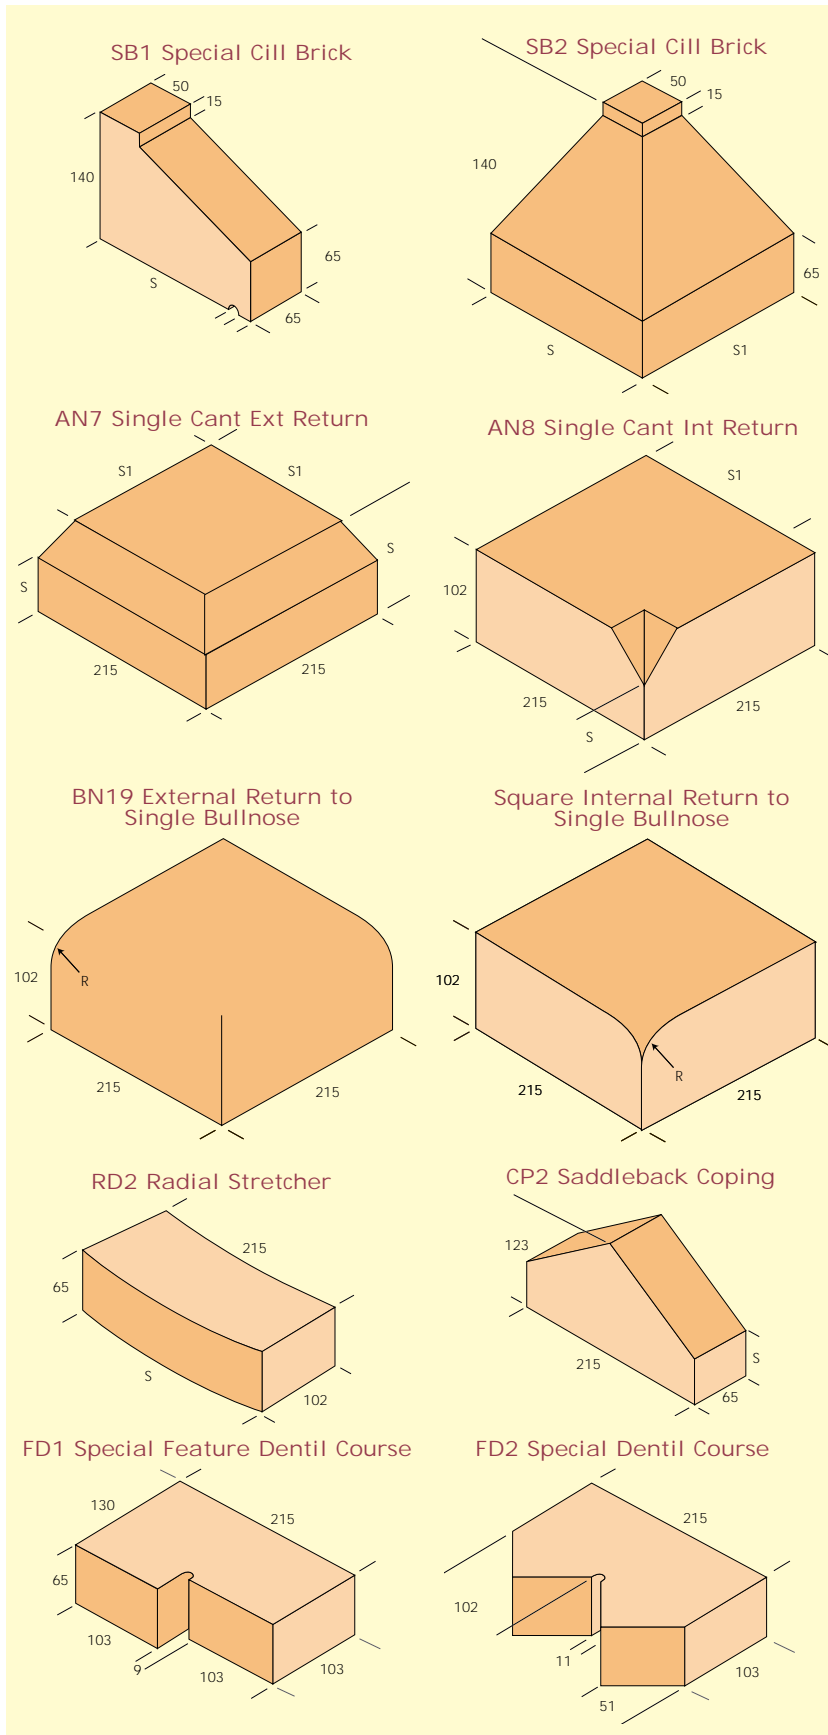

The drawings show the basic shapes of units and their principal dimensions. Where sizes or angles have to be specified, please contact our Regional Sales Offices for details of mould availability.

The Specials shown on these pages are available as Cast Stone Specials in three basic colours: Red, Cream/Buff, Blue/Black. These high strength units are only available in a smooth texture and are designed to be used as complementary feature bricks. The delivery period on these Cast Stone Specials may be quicker than that of bespoke units which are made specially to complement our extensive range of Facing Bricks.
