

KEYSTONES, DATE STONES & PLAQUES

KEYSTONES

Keystones can be used in conjunction with any lintel type, in a variety of sizes, and can include motifs, letters or numerals.

Cosmetic or 'Clip-on' keystones can be added to a lintel to give the appearance of a joined, three-piece lintel without incurring the installation cost of such a feature.

PLAIN KEYSTONE

Ref	Height (H)	Overall Width (W)	L1	L2	Weight (kg)
PK1	290	120	130	285	24
PK2	215	120	130	245	18
PK3	215	100	130	245	15

CHAMFERED KEYSTONE

CK1	290	100 or 200	130	285	28
CK2	290	100 or 200	130	245	22

COSMETIC TYPE KEYSTONE

LK1	290	40/90	130	285	7
-----	-----	-------	-----	-----	---

DATE STONES

Standard date stones are cast in a 440 x 215 x 100 block showing the current or any year required. Other sizes and shapes are available if necessary.

DATE STONE

DATE STONE	215	100	440	-	19
------------	-----	-----	-----	---	----

PLAQUES

Feature plaques showing text, numbers or a combination of both can be produced. We would add that due to casting constraints the style and size of text will determine the size of the casting. When considering a plaque, our Sales Office would require such information to enable the correct size of unit to be supplied.
