

CORBELS, VENTS & CHIMNEYS

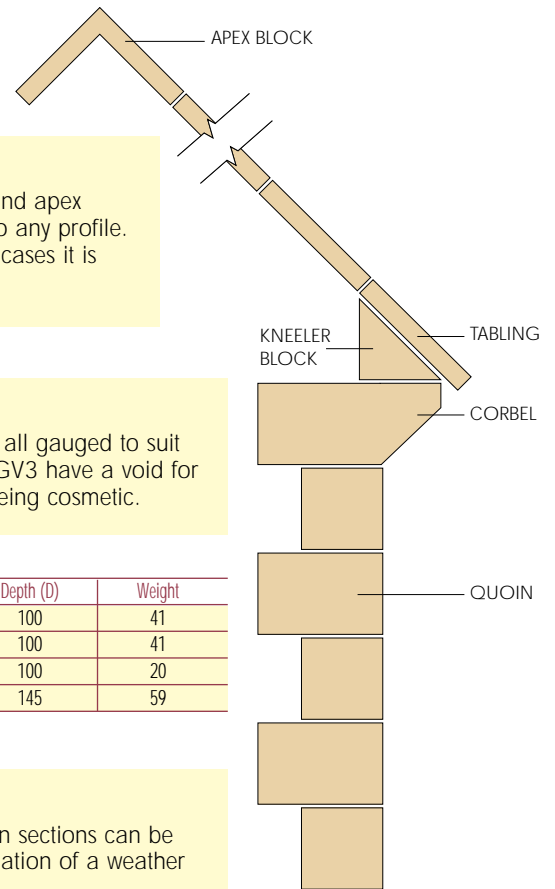

CORBELS

A wide range of corbels are available with different splays and moulding in various bed sizes which can be cast to suit all masonry finishes. Corbels can be cast handed, with ties and rebates for table coping. The illustrations below demonstrate a few of the options available. A more comprehensive list is available from our Sales Offices.

KNEELER BLOCKS/TABLING

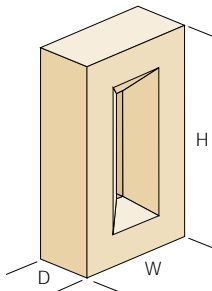

Special units for roofing features such as kneeler blocks and apex stones, including the tabling between, can be produced to any profile. Width of tabling can be varied to suit cavity widths. In all cases it is advisable to discuss details with our design team.

Gable Vent

GABLE VENTS

Four gable vents make up the range, all gauged to suit brick coursing. Only GV10PEN and GV3 have a void for ventilation, GV1CLOSED and GV2 being cosmetic.

GABLE VENTS

Ref	Width (W)	Height (H)	Depth (D)	Weight
GV10PEN	327	590	100	41
GV1CLOSED	327	590	100	41
GV2CLOSED	215	440	100	20
GV3OPEN	327	590	145	59

CHIMNEY COPINGS

Square types and a Moulded type coping which are cast in sections can be made to suit any stack size. Both copings require the formation of a weather back to the flue.

CHIMNEY COPINGS

Ref	Length (L)	Height (H)	Width (W)	Weight
CCSTD	up to 895	100	100	32
CCTRAD	up to 895	115	215	52
