

ENVIRONMENTAL POLICY

It is the policy of PD Edenhall Limited that its business maintains a high standard of environmental care in the areas in which it operates. To this end, we make the following commitments:

- *To comply with applicable regulations, decrees and standards in each locality where we operate*
- *To operate plants that are clean and safe through:*
 - 1 Control of our operations
 - 2 Implementation of action programmes resulting from periodical environmental audits
 - 3 Control of potential emissions and nuisances and taking swift corrective action in case of any malfunction or accident
 - 4 Optimisation of the reprocessing and recycling of any by-product in order to reach a minimum level of waste
- *To consider and integrate the environment into each capital expenditure programme by assessing any impact a project may have on the environment prior to any approval*
- *To save energy by constantly reviewing and optimising all methods of manufacture*
- *To use water economically*
- *To prevent any accidental pollution of the waterways by carrying out a programme of Environmental Risk Assessment at all our sites and ensuring a programme of corrective and preventative measures is in place which is continually monitored*
- *To inform promptly the relevant Government Agencies, company staff and members of the public in case of any incident that may create a risk*
- *To use the environment as a tool for dialogue with company staff with regard to policy, projects, training requirements and necessary awareness*
- *To ensure our suppliers and sub-contractors adopt practices consistent with our Environmental Policies*

Each company member is responsible, at their own level, for the proper implementation of this Policy, i.e:

- *Senior management will define the objectives in terms of the environment in line with current policy and will approve the necessary action programmes, ensuring they are properly implemented*
- *Operations Managers will:*
 - 1 Monitor the environment performance of each plant (including audits)
 - 2 Provide support for the plants in connection with regulatory procedures and relations with the relevant authorities
 - 3 Monitor environmental training
- *Site Managers will:*
 - 4 Implement the policy at local level
 - 5 Take responsibility for all environmental issues at their respective plants, ensuring progress is recognised in the local environmental performance.

The objectives of this policy will be achieved by effective communication and organisation involving all employees, ensuring the application of the essential disciplines required to meet the specific environmental standards of each locality.

Signed: *A.P. Cotton*
