

PRECAST STAIRS AND LANDINGS

THE PRODUCT

Edenhall Concrete Ltd. offers a 'Supply Only' or 'Supply and Fit' service of high quality stair flights and landings. These are used throughout the building industry from single storey extensions to multi-storey hotels and offices.

Our unique design and manufacturing package offers a fast, safe and economic service from quotation to installation. Edenhall Concrete's experienced team ensures that the purpose-made units are suitable for your requirements, from the design stage through to production and final installation.

Standard finishes to our treads and risers are suitable for most types of floor coverings. However, we are experienced in high quality specifications, including purpose-made spiral stair flights and self finished, smoothly flowing soffits, along with an extensive range of simulated stone colours and textures to suit most applications.

Edenhall Concrete endeavours to provide the solution to a customer's problem, and always in the most economical, professional manner.
