

**HOLLOWCORE FLOORING**

**THE PRODUCT**

We offer a Supply and Installation service of our high quality hollowcore flooring. This flooring system is used throughout the building industry, from a small block of flats through to a large industrial complex.

Our Fast Track service enables the units to be available within a few weeks from an order. Edenhall Concrete will survey the site to produce all necessary: method statements; risk assessment; lifting plans; and ensure that the customer's construction sequence is maintained.

Edenhall Concrete provides a full quotation and design service ensuring the product supplied is manufactured in accordance with BS8110 (Parts 1 and 2).

Hollowcore Flooring has several advantages over many traditional flooring systems.

- Increased sound resistance
- Increased thermal efficiency
- Fast installation
- Enhanced durability
- Greater fire resistance

Hollowcore flooring is currently available in 150mm, 200mm, 250mm and 300mm deep units. Certain sizes are available ex stock.

Our highly trained technical staff are available to offer assistance to design the flooring in accordance with the customer's requirements.

We also manufacture our own precast stairs and landings. Using our unique design we offer a fast, safe and economic service. These purpose-made units can be installed as part of the flooring package ensuring all the components are compatible.
